Find the x - and y -intercept of the line.

1 $-4x + y = 12$

- Ⓐ x -intercept is 12; y -intercept is -3
- Ⓑ x -intercept is -3 ; y -intercept is 12

- Ⓒ x -intercept is -4 ; y -intercept is 1
- Ⓓ x -intercept is 1; y -intercept is -4

2 $3x + 2y = 36$

- Ⓐ x -intercept is 3; y -intercept is 2
- Ⓑ x -intercept is 12; y -intercept is 18

- Ⓒ x -intercept is 18; y -intercept is 12
- Ⓓ x -intercept is 2; y -intercept is 3

Graph the equation.

3 $-4x - 2y = 8$

Name: _____

ID: A

What is the graph of the equation?

4 $y = -4$

5 $x = -2$
