

Name: _____

Constructions Project

The following constructions need to be completed:

1. Construct a segment.
2. Construct an angle.
3. Bisect a segment.
4. Bisect an angle.
5. Construct an isosceles triangle.
6. Construct an equilateral triangle.
7. Construct a quadrilateral (square, parallelogram, trapezoid, rectangle, or rhombus).
8. Construct a second quadrilateral (square, parallelogram, trapezoid, rectangle, or rhombus).
9. Construct a regular hexagon.

Each construction needs to be completed on a separate piece of paper. You need to number and write the description for each construction. For example, write "1. Construct a segment" at the top for the first construction.

Your project will be graded on neatness, accuracy of each construction, spelling, and correctly creating each construction. Staple this cover page along with your 9 constructions together.

Score: _____ out of 27 points
