## Exit Ticket - Pythagorean Theorem

Find the missing length of the triangle. Round to the nearest tenth.
1.

$\mathrm{m} \angle \mathrm{ABC}=90^{\circ}$
$\overline{A B}=24.8$ in
$\overline{B C}=12.4$ in
2.

$$
\begin{aligned}
& \overline{A B}=4.2 \mathrm{in} \\
& \overline{A C}=6.3 \mathrm{in}
\end{aligned}
$$
